

Are you planning, or have you been told that you need **A TOTAL KNEE REPLACEMENT?**

If so, participating in the SPARK 2 study of a new investigational treatment for pain following knee replacement surgery may be an option for you.

Research study minimum requirements to participate:

- 18 to 80 years of age
- Told by a medical professional that a total knee replacement (arthroplasty) is needed
- Only having one knee replaced
- No previous surgery on knee to be replaced

If you satisfy these minimum requirements, you may be able to participate in this study. The study staff will explain the complete list of requirements.

There is no charge for study participation and compensation may be available to those who satisfy applicable requirements.

Please contact us to learn more about this medical research study.
